International Visionary Seminar

Aging with a Healthy Brain: A Vision on Bridging Research and Industry

Monday March 7, 2016 – Copenhagen

Tuesday March 8, 2016 – Stockholm

The International Visionary Seminars are focusing on

- ❖ fast evolutions in ICT, biotech, nanotech, materials, health, food and related domains
- ❖ a vision on the state of the art technologies that will start to pay off in the coming generations
- ❖ an approach via concrete applications expected within 5, 10 to 15 years.

The event is addressed to you who are active in

- ❖ Business development, incubators/business parks, risk capital, research, innovation, start-up scene, healthcare or elderly care
